

TRAINING AND COACHING SERVICES

Rising Organizers provides coaching, training, and strategic consulting to progressive grassroots organizers and groups, new and old.

OUR MODEL

Rising Organizers is a community of grassroots organizers that works to develop new progressive leaders and activists in order to create more effective progressive movements.

We recognize that traditional organizing training and support are not accessible for many grassroots organizations and groups. We strive to bridge this resource gap. In pursuit of this goal, Rising Organizers provides sliding scale or at-cost services to organizations whose needs may not be met by existing resources. We support groups to develop and grow organizing skills and infrastructure to strengthen their pre-existing work.

We also provide our services to established organizations who want to better support their bottom-up organizing. We help these organizations enhance their work, including pivoting their existing infrastructure to center community organizing principles.

We offer training, strategic support, consulting, and individual and group coaching. We use engaging activities, real-world examples, and equity- and justice-centered methods to build relevant and meaningful grassroots organizing skills.

- **Webinars:** One- or two-hour online training sessions for participants who aren't able to meet in the same place
